BIOBIGG FINAL CONFERENCE

Programme

The final conference aims to increase knowledge transfer to SMEs and build their innovative capacity in relation to the development of a circular and sustainable bioeconomy in the SBR. Based on biological resources within the region, new innovative agro-industrial value-chains will be proposed to attendees through pre-feasibility studies, innovation programmes, business cases, implementation models and much more. The conference will also discuss key drivers for the bioeconomy, such as cascading, circularity and utilization of biological by-products, residuals and waste in the SBR.

PROGRAMME

13.00 – 13.20	Introduction to the BioBIGG project Methodological approach to the development of a circular and sustainable bioeconomy in the South Baltic Region (SBR) <i>Tyge Kjær, Associate Professor/Roskilde University, Institute for People and Technology</i>
13.20 – 13.35	Introduction to project cases in the SBR <i>Tyge Kjær, Associate Professor/Roskilde University, Institute for People and Technology</i>
13.35 – 13.40	BREAK

Theme 1: Household sector

- 13.40 – 13.50 **Organic municipal waste for biogas**
*Tyge Kjær, Associate Professor/Roskilde University,
Institute for People and Technology*

Theme 2: Industry sector

- 13.50 – 14.10 **Management of poultry feathers to keratin hydrolysate - concept for the Polish SBA region**
Aleksandra Gołqbek, Research and Academic Assistant/Gdansk University of Technology, Faculty of Mechanical Engineering
-
- 14.10 – 14.20 **Processing and Preparation of Organic Apple Waste to Produce High-Quality Proteins**
Max Mittenzwei, M.Sc., Research Associate University of Greifswald, Institute of Geography and Geology
-
- 14.20 – 14.25 **BREAK**

Theme 3: Agricultural sector

- 14.25 – 14.45 **From residue to food and feed – Protein, fibers and phenolic compounds from leafy side streams**
Thomas Prade, Assistant Professor/SLU, Department of Biosystems and Technology, Alnarp
Bill Newson, Researcher/ SLU, Department of Plant Breeding
-
- 14.45 – 14.55 **Sugar beet tops for biogas**
Tyge Kjær, Associate Professor/Roskilde University, Institute for People and Technology

- 14.55 – 15.00 **BREAK**

Theme 4: Forestry and biomass related sectors

- 15.00 – 15.10 **Cultivation and Economic Use of Alnus Trees on Wet Peatlands**
Beate Cuypers, Project Manager/ University of Greifswald
-
- 15.10 – 15.30 **Pyrolysis of old thatching reed in Mecklenburg-Vorpommern**
Jennifer Nitzschke, Assistant in EU and International Cooperation/ Fachagentur Nachwachsende Rohstoffe e.V. (FNR)

15.30 – 15.50	Recommendations to enable the transition towards a sustainable Bioeconomy in the South Baltic Area <i>Valerie Sartorius, Project Coordinator in EU and International Cooperation/ Fachagentur Nachwachsende Rohstoffe e.V. (FNR)</i>
15.50 – 16.00	Q&A <i>Magnus Skøt, Research Assistant/ Roskilde University, Institute for People and Technology</i>
16.00 – 16.05	Concluding remarks <i>Tyge Kjær, Associate Professor/Roskilde University, Institute for People and Technology</i>

Thank you for the participation!

The BioBIGG consortium

Roskilde University (RUC) (Lead partner) *Denmark*
RISE Research Institutes of Sweden *Sweden*
Gdańsk University of Technology (GUT) *Poland*
Agency for Renewable Resources (FNR) *Germany*
University of Greifswald (UG) *Germany*
Swedish University of Agricultural Sciences *Sweden*
